Suryansh Badera

SENIOR UNDERGRADUATE AT CAREER POINT UNIVERSITY

Kota, Rajasthan - 324005

☐ +91-7976683275 | ✉ lemononator23@gmail.com | ⌨ suryansh-cpu | in suryanshbadera

Skills

Programming Languages	C++, PYTHON, C, java(basic), Kotlin
Technologies/Framework	CSS, HTML, FastAPI, FlaskAPI(Basic)
Databases	MySQL, MongoDB
Other Skills	Data structures and algorithms(DSA), Problem solving

Education

Career Point University(CPU), Alaniya
Kota, India

BACHELOR OF TECHNOLOGY IN COMPUTER SCIENCE AND ENGINEERING — *July, 2022 - Present*

- last Semester Grade Point Average, SGPA: **9.6**/10.00
- Cumulative Performance Index, CPI: **8.6**/10.00

Central Public School, Kota
Kota, India

CENTRAL BOARD OF SECONDARY EDUCATION (CBSE) – 12TH — *2022*

- Percentage in 12th: **72%**

Modern School, Kota
Kota, India

CENTRAL BOARD OF SECONDARY EDUCATION (CBSE) – 10TH — *2020*

- Percentage in 10th: **75%**

Experience

Android Development Intern (On-Site)
Kota, India

SNOH TECHNOLOGIES — *Nov'25 – Present*

- Developed the Community Tags component to categorize and filter different community types across the SNOH application.
- Implemented Support, Theme, Language, and Notification modules under the Settings section for enhanced user customization.
- Impact: The SNOH application is live with 100+ MAU; these features significantly improve user experience and community management workflows.
- Exposure: Kotlin, Jetpack Compose, MVVM Architecture, Bitbucket and GitHub.

Projects

Assessment Portal
Remote

FREELANCE PROJECT, BACKEND DEVELOPER — *September'25 – Present*

- Developinggg the backend for a test portal where instructors can create assessments with four question types: MCQ, Multi-MCQ, short/long subjective answers, and coding questions.
- Implemented multi-authentication support including system credentials and Google/GitHub OAuth.
- Built instant auto-evaluation logic for MCQ and Multi-MCQ questions to reduce manual grading efforts.
- Impact: The platform is currently under UAT and actively used by stakeholders; I own the backend development end-to-end.
- Exposure: Python, FastAPI, FlaskAPI, MongoDB, Postman.

AI Resume Builder
NMIMS Indore

HACKATHON PROJECT, BACKEND DEVELOPER — *March 2025*

- Developed backend services for an interactive AI chatbot that builds high-ATS resumes by collecting structured information from users.
- Implemented key modules including ATS-checker, resume comparator, skill extraction, and grammar enhancement using Grammarly AI APIs.
- Exposure: Python and supporting libraries.

Account Manager
Career Point University, Kota

B.TECH PROJECT, UNDER MRS. SHALINI PAREEK — BACKEND DEVELOPER — *September 2024*

- Built a simple and efficient account management system for small businesses to log, track, and maintain third-party transactions.
- Implemented signup/login, CRUD operations for third parties, and full CRUD for transactions with secure data handling.
- Exposure: Python, Excel automation, encryption and decryption.

Achievements

2025	**CodeChef**	peak contest rank : 1183 and rated : 1410
March'25	**Execute hackathon**	Secured 2nd position in a 48 hours hackathon among 160 teams

Extra-Curricular Activities

Present	**Active Competitive Programmer**	on Atcoder, CSES, HackerEarth, CodeChef, LeetCode	
2024	**Student coordinator@Techfest**	Organizer and coordinator of CPU Technovation TechFest'24	*CPUK*
2023	**Clash of Coders(COC)**	Member of COC club and organized a tech challenge	*KOTA, India*
